

# COVERED CIRCUIT BREAKER LOCKOUT TECHNICAL DATA SHEET

This tool-free universal miniature circuit breaker lockout will lock out ISO/DIN miniature circuit breakers (MCBs) preventing the MCB switch from being operated.

Easy to use, the lock out is simply attached to the Circuit Breaker switch, the thumbscrew is then turned until tight against the switch, a suitable padlock can then be applied, either horizontally or vertically.

## Benefits of Covered Circuit Breaker Lock Out:

- Universal fitting, suitable for all miniature ISO/DIN circuit breakers worldwide (MCBs)
- Simple tool-free thumb screw design for Lockout Tagout applications
- Thumb screw inaccessible when in locked position to prevent removal
- Dual padlock design accepts padlocks horizontally and vertically
- Can also be used with appropriate hasp
- High quality design withstands chemicals and heat
