

SAFETY SIGNS, LOCKOUT TAGOUT, TAGGING & ASSET MANAGEMENT

Safety Signs, Lockout Tagout and tagging systems such as Scaffolding Tags and Ladder Safety Tags.

Lockout Tagout - Isolate and identify equipment in need of repair or maintenance to prevent unexpected energisation. Encouraging users to create a simple and easy to follow procedure which helps provide security and clarity for all members of the team.

Tagging and Asset Management – Well designed to record information for both safety and procedural purposes. All tagging systems are easily fitted, displayed and maintained whilst being easily recognised throughout a wide variety of industries.

Site Surveys

The team will assess the site needs to provide a comprehensive report of all Signage, Lockout Tagout and Shadow Board requirements to keep the site working productively and safely.

We also offer a full fitting service providing the complete package entirely tailored to the individual business.
