A division of Centurion Europe Ltd

# Lorry Halt

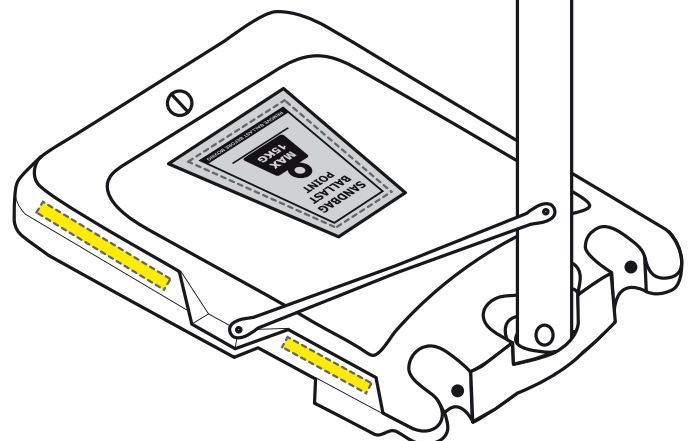

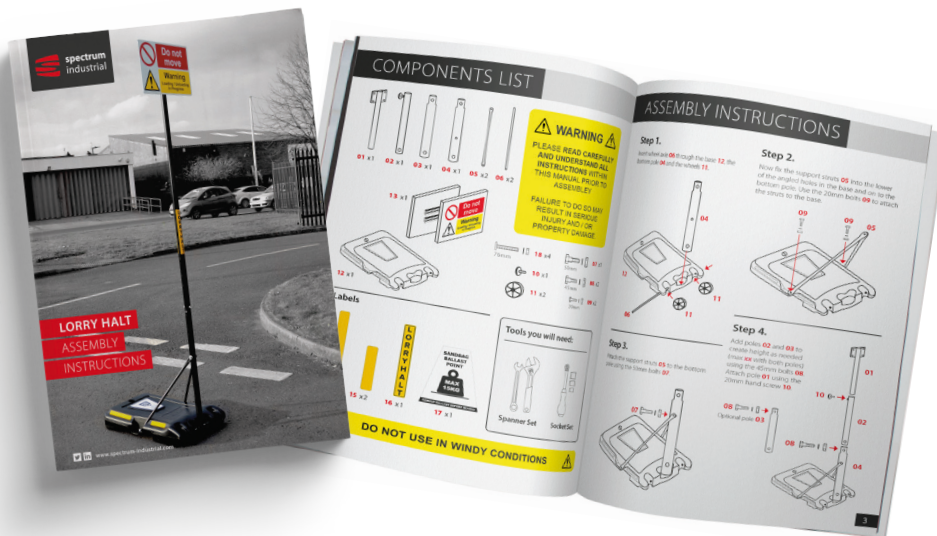

Supplied as a complete unit, flat packed in one box. The Lorry Halt requires some simple assembly. (Full instructions supplied).

Lorry Halt is telescopic and easy to adjust and fix at any height, whilst the strong steel is covered in a toughened paint coating to make it extra durable and weather resistant.

Lorry Halt can be moved easily on the wheels in the base - making both use and storage after use simple.

Weighting is required in the base, as either sand or water. Further sand ballasts may be used if needed.

Customisation options available.
